

## OUR DISTINGUISHED FEATURES:

The content of our practice tests is carefully designed by experts in order to cover all the objectives of the exams.

Online and offline modes, including downloadable practice tests that can be installed on your device and operated without internet connection.

Multiple platforms: iPhone, iPad, Android tablet and phone, Windows Phone and Windows RT. Implementation in different systems (PC, Linux, Mac and Surface Pro) and browsers - Google Chrome, Firefox, Internet Explorer and Safari.

Detailed Test Score Reports for each attempt, with students progress graph. If you take your tests offline, report results can be uploaded and synchronized.

Our new easy to use platform design helps improve user productivity and takes your educational experience to a whole new level with its cutting edge technologies.

Customized ways of learning: Practice and Certification Modes. Plus, create individual assessments using a mix of different practice tests with the ability to change the required passing score, time limit and more.

## MeasureUp practice tests prepare students - and instructors - for success

# YOU PRACTICE. YOU PASS.

*“MeasureUp is an excellent fit for our program. The study mode teaches students to manage their time and answer questions in a variety of formats. We customize the practice tests to ensure our students are taking questions on the objective domain they are studying at the moment.”*

Michael Lafferty, Vision Workforce Skills, UK
